Total Amount of Order			

***Note: Use the **total labels** ordered from this page to determine the **price line**.

We suggest the 20" or 13" See-Fine stakes for bedding plants because the larger back plates offer superior adhesion to galvanized metal. We suggest round corners on the labels, but square corners are available. The 3" x 4" tree labels are normally provided with a centered 1/8" hole in the middle top. (Tree tacks are purchased separately for mounting). We can provide two holes in the top corners for wire or chain hanging. We can provide up to 4 holes if you prefer to mount on a weatherproof wooden plaque. The plaque should be sized to about 4"x5" to provide an attractive border. Hang labels have a 1/8" hole in the left center for hanging on a pot or plant.
